John Epstein, Robin Michelson Share Baer Award

Dermatologist John H. Epstein, MD, and cochlear implant specialist Robin P. Michelson, MD, have been chosen to receive the School of Medicine's Charlotte C. Baer Memorial Clinical Faculty Award.

The award is presented each year to a member of the UCSF clinical faculty for outstanding service to the School. This is the second time since the award's inception in 1979 that the honor will be shared.

Characterized as "probably the best known dermatologist in the Bay Area," and recognized world wide as "one of the giants in his field," Epstein graduated from our School of Medicine in 1952, and has been deeply committed to teaching students and house staff for nearly four decades.

In many circles Epstein is called "Mr. Photobiology," due to his many years researching the effects of sunlight on the skin, including allergies, adverse reactions and cancer.

Epstein is a former president of the American Academy of Dermatology, and last year received the "Distinguished Teacher of the Year" award from the Department of Dermatology.

Michelson is called the grandfather of the cochlear implant program in our Coleman and Epstein Laboratories in the Department of Otolaryngology. Thanks to his pioneering efforts, UCSF has been a world leader since the early 1960s in the development of these electronic devices to increase one's hearing.

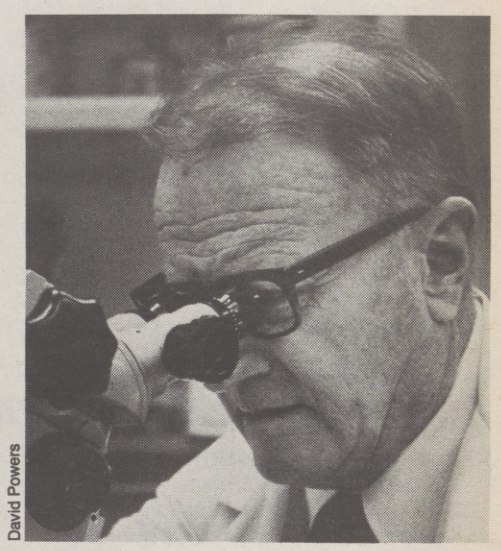
Following five years of animal research, Michelson put the first implant into a patient in 1969, and implanted the device into several other patients shortly after that. Thanks to these prototypes, UCSF's Robert Schindler and Michael Merzenich now are implanting four-channel implants, which show the most promise ever in helping a profoundly deaf person to understand normal speech.

Michelson now is working to develop an electronic retinal prosthesis, basing the work on many of the same principles which he used in the cochlear implant.

An outstanding educator, Michelson completed his otolaryngology residency at the VAMC in 1948, and has been a clinical professor on this campus since 1974.

The award is named for an extraordinary woman. Charlotte Baer was a European breast stroke champion who was not allowed to try out for the 1936 Olympics in Berlin because she was Jewish. She earned two degrees in Europe before coming to the US to secure her third medical degree—this one from UCSF. She maintained a clinical practice and was on the UCSF clinical faculty until her death in 1973.

Epstein



David Powers

Michelson

Helping to coordinate this year's program are (front row) first-year students Grace Soetikno and Laureen McGirr with (back row) Lori Stewart, Stephen Harris and Tina Denetclaw.

Pharmacy Students Take Third in National AIDS Competition

The School of Pharmacy's Community AIDS Education Project is $1,000 richer thanks to a third-place prize in the first National Pharmacy Intercollegiate AIDS Awareness Competition, sponsored by the Department of Health & Human Services and the Association of Pharmacists & Corporate America for AIDS Education.

The Commmunity AIDS Project was initiated and is run soley by our pharmacy students. Begun just last year, it boasts 20 students, representing all four years, who give AIDS awareness lectures to the community, including junior high school students, senior citizens and parent-teacher organizations.

To be part of the program, each student must take an AIDS course through the School of Medicine and be trained by the UCSF AIDS Health Project and the SF AIDS Foundation.

Third-year student Tina Denetclaw directed the project last year, for which she received the Academy of Students of Pharmacy's award for outstanding project coordinator of the year. This year's program is coordinated by second-year students Stephen Harris and Lori Stewart, while Tina serves as training coordinator. Clinical pharmacist Joan Kapusnik is the faculty advisor.

For further information on the program call Stephen, Lori or Tina at x62732.

UCSF-Laurel Heights Public Hearing Apr. 21

The State Department of Health Services will hold a public hearing on the campus' application to extend our license for the use of radioactive materials to cover one 10,000 square foot research unit—the Intercampus Program in Molecular Parasitology—at UCSF-Laurel Heights. The hearing is being held on Friday, April 21, from 9 a.m. to 5 p.m. at the UCSF-Laurel Heights auditorium, for the purpose of gathering comments from the public as well as expert testimony.

It is routine for an institution with a license to handle radioactive materials to ask for an extension of that license when going into a new facility. Normally there is no public hearing held on such a matter. However, in this case, a public hearing was requested by the Laurel Heights Improvement Association, the group which has sought to block the move of

(continued on page 2)

Campus Joins Neighborhood Concern Over Latest Chevron Closure

There has been a rash of gas station closings across the city over the last few years. Just over the last few months on our campus doorstep, the Shell station at Stanyan and Fell Streets and the Chevron at Seventh and Lincoln have died. Next to go is the Chevron at 798 Stanyan (at Beulah) run by Tom Higa.

This new closure would be a real blow to our neighborhood as it provides gas and repair services for nearby residents, UCSF employees, visitors, tourists and commuters.

Our campus is the only one in the UC system that does not have its own garage and bulk gas. Years ago, Higa set up a special lane for UCSF shuttles in order to fill their tanks at the end of each day. "Most of our shuttles regularly use Tom's station," explains Jim Wood, our transportation manager. "If that station closes, the drivers must go farther and compete with other drivers in search of gas. Since our drivers get paid from the time they leave the campus, this could tack on additional hours and more money."

Some 800 residents already have signed petitions. And our campus has joined the neighborhood in sending letters to Chevron to express concern over this closure. If you're interested in more information, call the Office of Public Service Programs at x63206.

Public Forums to Discuss AIDS Issues Facing Heterosexuals, Women Apr. 11, 13

UCSF is sponsoring two panel discussions on AIDS during the second week of April. The first will concentrate on the spread of AIDS in the heterosexual community; the second specifically on women infected with HIV.

- Current findings on AIDS in the heterosexual community will be discussed on Tuesday, April 11, from 7 to 9:30 p.m. at the Unitarian Church, 1187 Franklin Street, SF. The discussion will be based on the results of the California Heterosexual Partners' Study, a joint project of UCSF and the CA Department of Health Services.

Speakers will include Nancy Padian, principal investigator of the study; Don Francis, AIDS advisor for the CDC and CA Department of Health Services; and Martin Delaney, director of PROJECT INFORM. For further information call 550-6896.

- Health care workers, AIDS educators, a lawyer and a journalist will discuss issues facing women who are infected with HIV on Thursday, April 13, 7 to 9 p.m. in the Hartsook Room, the Center for Educational Development (CED), 1855 Folsom Street.

The discussion is part of the "Living with HIV" series sponsored by the UCSF AIDS Health Project, which also sponsors the "Positives Being Positive" support groups that allow those infected with HIV to share information and emotional support.

Topics will include health care, alternative health options, nutrition, substance use, recovery from addiction, co-dependency, reclaiming and eroticizing sex, legal issues and family planning in the era of AIDS.

Panelists will be Lauren Poole, Project AWARE (Association for Women's AIDS Research and Education); Amanda Peletz, AIDS Alternative Healing Project; Susie Bright, *On Our Backs* magazine; Tanis Dasher, Bayview-Hunters Point Foundation; Andrea Palash, AIDS Legal Referral Panel; and Cathy Cassel, AIDS Family Project.

Moderating the panel will be Marsha Blachman, coordinator of women's services at the UCSF AIDS Health Project. Although the focus will be on issues for women, says Blachman, all are invited to attend—men, family members, lovers, friends and caregivers.

Free parking is available. For further information call the UCSF AIDS Health Project, x66430.

- Meanwhile, in the latest AIDS news from UCSF: School of Dentistry researchers conclude in a new study that HIV is found only rarely in saliva, making it a very unlikely source for transmission of the disease.

Study findings do show, however, that with one type of testing technique, saliva is a good source for detecting the presence of antibodies to HIV, which indicates exposure

Some Slurped Noodles . . . Others Ate Egg Rolls

Jin Jen (left), Jackie Jann and Warren Doo were three of dozens of people who gathered last week to eat noodles and celebrate the kick-off of APASA, the newly formed Asian Pacific American Systemwide Alliance. "It's a mouthful," said president pro-tem Bob Obana—and so were the noodles. Those who attended had their choice of many tasty dishes, several of them donated by neighboring restaurants.

The purpose of the organization, explained Bob, is to bring folks with a common denominator together—"something like what the Black Caucus does for the black community on campus." The group will serve as a voice for the greater Asian-American community on campus.

Following Bob's remarks, Vice Chancellor for Personnel & Student Services Thena Trygstad personally welcomed the group. "I'm thrilled to see such a good turn-out," she said. "This is something we've needed for a long time."

Staff, faculty and students are welcome. For further information, call Gail Mametsuka at x66932.

While the APASA folks were busy slurping noodles, across the street in LPPI people were occupied with egg rolls and pork buns.

The occasion? The staff of the Psychiatric Intensive Care Unit was hosting an open house for all their referral sources in the community. Shown are (left to right) Andy Anderson, Crisis Clinic technician at Mount Zion; UCSF Psych ICU clinical nurse V Susan Ormiston and director Renee Binder; and Art Hom, director of the Mount Zion clinic.

Out of about 120 invitations sent, approximately 100 people showed up. "We thought that was pretty good," said Susan. "This is the first time we've done something like this." Some of the agencies represented by the guests included the Geriatric Day Treatment Center, Veteran's Administration Medical Center, and Home Visiting Team of San Francisco.

Next Campus Blood Drive Apr. 25

It's again time to donate that much-needed commodity: blood. Put aside some time on Tuesday, April 25, to be part of the UCSF blood drive, where the campus hopes to collect hundreds of units of much-needed blood.

Donation sites will be the main lounge of Millberry Union from 8 a.m. to 2 p.m. and the mezzaine level of the School of Nursing building from 11:30 a.m. to 5:30 p.m. Appointments are not needed.

Blood donation raffle prizes—a pair of gift certificates for $50 each at the Washington Square Bar & Grill—will be donated by the ASUCSF and the restaurant.

The alumni associations of the Schools of Pharmacy, Medicine and Dentistry will stage contests among the classes, with cash prizes being awarded to those classes that donate the most blood. The School of Nursing Alumni Association will conduct a similar contest among divisions of the School.

Personal ID is required. Call x64013 for further information.

Campus blood drives are sponsored by the Irwin Memorial Blood Centers and coordinated by Campus Tours/Speakers Bureau. A second blood drive, sponsored by our Medical Center Blood Donor Center, is being planned for May at CED. See future issues of *Newsbreak* for details.

Medicine's Homecoming: "A Rhapsody in Blue & Gold"

The School of Medicine will host its annual homecoming on Saturday, May 6, under the theme "A Rhapsody in Blue & Gold."

Based on themes by musical genius George Gershwin, a morning scientific program in Cole Hall will feature three members of the class of 1964: Donald A. Young, president of the class, now executive director, Prospective Payment Assessment Commission; David Smith, president and medical director, Haight Ashbury Free Clinic, and UCSF associate professor, occupational medicine; and Jacqueline Etemad, UCSF associate clinical professor, psychiatry; plus Paul Ashton, president of the class of 1939, and Dean Rudi Schmid.

At a noon luncheon in Millberry Union, the Alumnus-of-the-Year Award will be presented to Ellen Brown, '39, professor emeritus, medicine. Academic excellence awards will be given to outstanding graduates, and Class of 1939 Honorary Memberships will be bestowed on Chancellor Emeritus John B. de C.M. Saunders and Otto E. Guttentag, professor emeritus, medicine.

There will be musical excerpts from both the '39 and '64 class plays, and Ephraim P. Engleman, MD, director, Rosalind Russell Arthritis Center, will perform music by Gershwin.

A dinner dance, honoring the '39, '64 and '89 classes, will follow that evening at the Hotel Meridien beginning at 7:15 p.m. For further information call x61471.

Spring Community Health Talks Begin

The spring series of free Community Health Talks at UCSF-Laurel Heights and on our Parnassus campus have begun.

At the UCSF-Laurel Heights Conference Center, 3333 California Street, the following will be featured on Wednesday evenings from 7 to 8:30 p.m.:

- Apr. 12: "Pain Management: New Solutions to Old Problems." Warren McKay, director of our Pain Management Center, discusses multidisciplinary approaches to pain management, including nerve block techniques.
- June 14: "How the Brain Regulates Hunger and Body Weight." Stylianos Nicolaidis, UCSF Presidential Chair in Physiology and Neurosurgery, discusses findings from his work at the Laboratory of Regulatory Neurobiology at the College of France in Paris.

On Thursdays, from 7 to 8:30 p.m. on campus in HSW 302, the remaining lectures will be featured:

- May 4: "Keeping Performers Healthy." UCSF psychiatrist Peter F. Ostwald, medical director, Health Program for Performing Artists, will discuss the prevention, diagnosis and treatment of some of the unique medical problems of musicians, dancers, actors and singers.
- June 1: "Stop Putting That in Your Mouth!" UCSF Habit Abatement Clinic coordinator Chrystal Tunstall, will discuss techniques and resources for controlling compulsive eating, smoking and nail-biting behavior.

Laurel Heights *(continued)*

the School of Pharmacy to Laurel Heights. A decision by the State Department of Health Services is expected about 45 days after the hearing.

Scientists, postdoctoral fellows and graduate students in the program, which is under the direction of Nina Agabian, PhD, are searching for drugs to attack parasitic diseases such as malaria; giardia, which has made Sierra stream waters undrinkable; chlamydia, the most prevalent sexually transmitted disease in the country and a leading cause of blindness in the Third World; African sleeping sickness; schistosomiasis; hookworm; trachoma, another leading cause of blindness; parasites that affect AIDS patients; and "Montezuma's Revenge," the travelers' disease. For most of these there are no preventive vaccines and few effective drugs.

The California Supreme Court decision on the Laurel Heights Environmental Impact Report ruled that work being conducted at Laurel Heights is safe, and that UCSF could continue its present activities there. The Court lifted the stay which precluded researchers from using any radioactive materials, giving us the go-ahead to apply for an amendment to our license to include Laurel Heights.

Small amounts of radioisotopes are used in biological research to track the passage of molecules through an experiment. At present the research team is doing this part of the operation in borrowed laboratories of other researchers on Parnassus.

For further information about the hearing, call the Office of Public Service Programs, x63206. Shuttles run approximately every 20 minutes from campus to Laurel Heights.

Can You Donate Some Scientific Equipment?

UCSF's Science Education Partnership Program (SEP) is asking faculty and research staff to donate surplus equipment and supplies to science classrooms and programs in the SF Unified School District.

During the past one and one-half years, UCSF has provided the school district with supplies ranging from miscellaneous glassware to spectrophotometers and computer equipment. For a full list of equipment most requested by teachers, call SEP coordinator David States at x64132. You can either drop off items in Rm. HSE 920, or call David for pick-up.

The kind of stuff science dreams are made of, says David.

Packard Nominations

Our campus has been invited to submit two nominations for the David and Lucile Packard Fellowship. Designed to support research efforts of young faculty in the natural sciences and engineering, the program is open only to people who have been on the faculty no longer than three years. It provides $100,000 per year in unrestricted research support renewable for a period of five years. For full application information visit Academic Services in Room S 115, or call x62218. Deadline for applications is Friday, April 21.

AIDS *(continued)*

to the virus. This could prove very useful in Third World countries where information is needed on the spread of the AIDS virus but testing with blood samples is not feasible, according to Deborah Greenspan, associate clinical professor of oral medicine, who headed the study.

UCSF coinvestigators were John S. Greenspan, professor and chair, oral biology; and Jay A. Levy, professor, medicine.

Senior Wellness Day at Laurel Heights, Apr. 29

A health fair for seniors, with information on legal services and health plans, senior resources, urban services, nutrition and medications, will be held on Saturday, April 29, from 10 a.m. to 4 p.m. at UCSF-Laurel Heights Conference Center, 3333 California Street.

There will be blood pressure screenings, hearing, diabetes and vision tests, and dental exams, given by our students in the Schools of Pharmacy, Medicine, Dentistry and Nursing. There also will be food, gifts, and free entertainment. It will be wheelchair accessible. This third-annual fair is cosponsored by the ASUCSF and the Office of Public Service Programs. For further information call x62010.

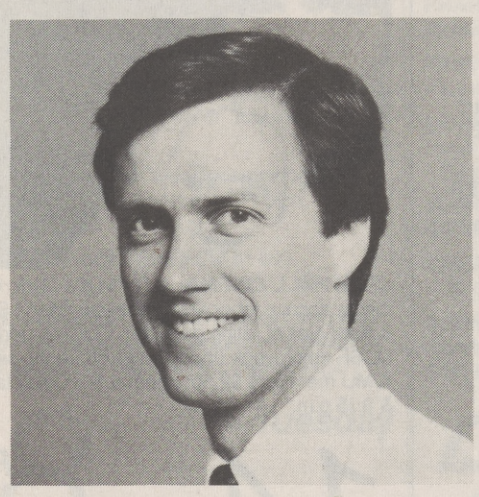
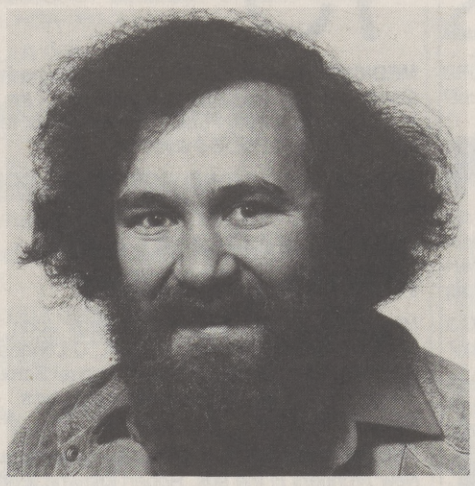
Honors & Awards



Adzick

N. Scott Adzick, assistant professor, surgery: Winner of a 1989 American College of Surgeons Fellowship for his work on "Fetal Wound Healing: The Role of the Extracellular Matrix."

Perinchery Narayan, assistant professor, urology: First-place winner of the Joseph F. McCarthy Essay Contest of the Western Section of the American Urological Association for his work on the MRS study of prostate pathology. **Peter R. Carroll,** assistant professor, urology, took third place for his work on the continent ileocecal urinary reservoir.



Walter

Peter Walter, associate professor, biochemistry & biophysics: Winner of a Sloan Research Fellowship for $25,000 from the Alfred P. Sloan Foundation for his work on protein transport across the endoplasmic reticulum.

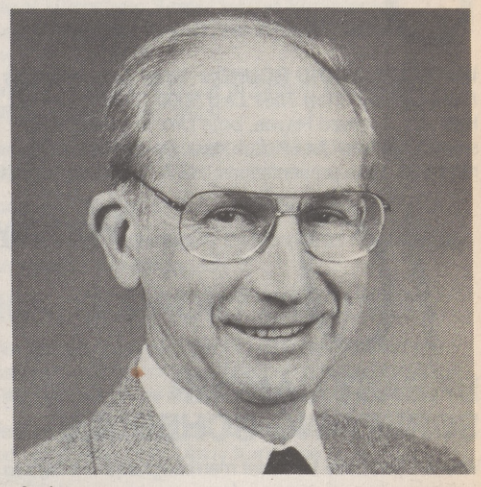
Betty L. Highley, professor emeritus, family health care nursing: Winner of the Sigma Theta Tau International Nursing Honor Society Region 1 Print Media Award for her work on the photo-documentary "Stories of Health & Illness." Highley collaborated on the project with family health care nursing researcher **Tom Ferentz**.

Moscicki

Barbara-Anna Moscicki, assistant professor, pediatrics: Winner of the Society for Adolescent Medicine Young Investigator Award for her work on "Differences in Sexual Behavior, Sexually Transmitted Disease Infection & Biologic Maturation Among Adolescents with Cervical Intraepithelial Neoplasia."

David A. Wood, professor emeritus, pathology; director emeritus, CRI: Re-elected vice chair of the Cancer Advisory Council of the CA Department of Health Services. He has been a member of the council since its establishment in 1959.

Appointments



Anderson

Malcolm F. Anderson, assistant dean for academic affairs, Fresno VAMC: A native of Leeds, Yorkshire, he received his medical education at St. George's Hospital Medical School in London and at Cambridge, before coming to the US in 1972 as a visiting Kodak Scholar in Radiology at Stanford. In 1984, Anderson was appointed associate clinical professor of radiology at the UCSF-Fresno Central San Joaquin Valley Medical Education Program and chief of radiology at Fresno VAMC. An expert in hepatic blood flow, he also is currently studying medical decision analysis in radiology. He became a full professor of clinical radiology in 1988.

Publications

Barbara L. Blackwell; Lillian K. Cartwright, both clinical lecturers, health psychology: Co-authors, *Program Consultation with Human Service Organizations: A Clinical Perspective* (Third Party Publishing, Oakland, 1988).

Colleen L. Johnson, professor, medical anthropology: Author, *Ex Familia: Grandparents, Parents and Children Adjust to Divorce* (Rutgers Univ. Press, NJ, 1989).

Robert H. Glass, professor, ob/gyn & reproductive sciences; research associate, Laboratory of Radiobiology & Environmental Health: Co-author, *Clinical Gynecologic Endocrinology and Infertility* (Williams & Wilkins, Baltimore, 1989).

Promotions

Promotions are made available to this publication after they are processed by the Personnel Department.

Randal Billyard, hospital parking operator aid, parking operations.

Mary Felder, administrative assistant I, anatomy.

Violeta Malicden, senior clerk, pediatrics.

Lisa Martinovich, administrative assistant II, medicine.

Mildred Ng, academic personnel assistant III, academic affairs/academic personnel.

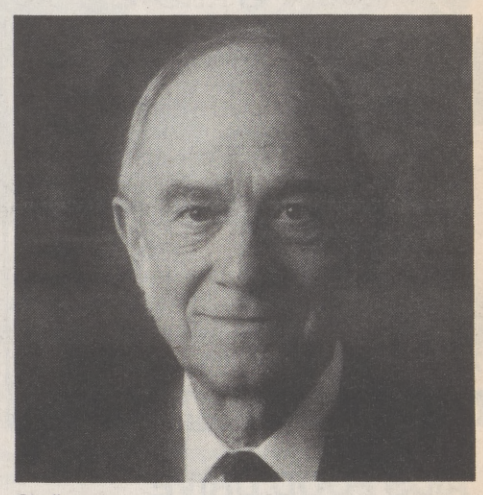
Norina Peebles, staff research associate II, laboratory medicine.

Gary Riggs, procurement assistant III, physical plant.

Gemma Tayao, senior collections representative, medical group business services.

In Memoriam

Glenn E. Sheline, professor emeritus, radiation oncology: A world leader in the field of neuro-oncology, he was a member of the UCSF campus for almost 40 years. Among the first to develop and promote radiation therapy as effective treatment for brain tumors, he devised a better way to focus radiation, thereby minimizing the amount of radiation to healthy tissue. As a young postdoctoral scientist he was a member of the Manhattan Project during WW II, but after the war devoted his life's work to helping set radiation safety standards for the world. He received his MD from UCSF in 1948, joined the faculty in 1955, became professor of radiology in 1964, and served as vice chair of radiation oncology from 1978 until his retirement earlier this year. He was appointed in 1981 to the International Commission on Radiation Protection, and chaired the Committee on Radiation Policy of the American College of Radiology since 1974. The Departments of Neurosurgery and Radiation Oncology have established a joint lectureship in Sheline's honor. In lieu of flowers, the family prefers that contributions be made to this fund. Checks made payable to UCSF Foundation-Glenn E. Sheline



Sheline

Fund should be sent to the UCSF Department of Radiation Oncology, Room L 75, Box 0226, San Francisco, CA 94143.

Max Fine, clinical professor emeritus, ophthalmology: A pioneering corneal transplant surgeon, he was the first to perform this procedure in the western US, and over the years obtained an international reputation in the field. Fine graduated from UCSF in 1933 and practiced eye surgery in SF for nearly 57 years. He developed several instruments used in corneal transplant operations, including Max Fine forceps, which are commonly used today. One of his greatest contributions was recognition that in dealing with transplanted corneal tissue—the clear round "window" taken from the eye of a donor—it is crucial to avoid damage to the inner layer, or endothelium. In most transplants it is problems with this layer, a mere one cell thick, that lead to clouding of the cornea. Fine became clinical professor at UCSF in 1959, and that same year joined the staff at Mount Zion as chief of ophthalmology. He retired to emeritus status from both institutions in 1968. Among his many honors were the Honor Award and Castroviejo Medal of the American Academy of Ophthalmology and the US Army Outstanding Civilian Service Medal.

Service Awards

Service awards are issued on staff members' tenth anniversary of employment (or longer, in increments of five years). Names are provided by Personnel as awards are processed. Campus and Medical Center departments should send criteria to Personnel as employees become eligible for service awards.

Julie E. Alden, 15 years, physiological nursing.

Amy J. Ash, 10 years, research affairs.

Diana D. Baughman, 10 years, pathology.

Alcus Bill, 20 years, physical plant.

Jarvis Blanson, 10 years, patient escort services.

Aurora L. Cruz, 10 years, environmental services.

Alma M. Dugdale, 20 years, Millberry Union bookstore.

Betty L. Edmonson, 20 years, animal care cell culture facility.

Paul Ertl, 25 years, hospital accounting.

Clyde W. Ewart, 25 years, medical records.

Fermin F. Garcia, 20 years, medical records.

David K. Gomberg, 20 years, computer center.

Christina M. Johnson, 10 years, radiology.

Margaret Koman, 20 years, nursing service, ACC.

Alfredo E. Mijango, 10 years, medical records.

Maria T. Mizzi, 10 years, environmental services.

Alma D. Pagliarulo, 10 years, Proctor Foundation.

Rolando B. Paloma, 10 years, environmental services.

James Ponder, 15 years, physical plant.

Betty J. Preston, 30 years, laundry/linen services.

Araceli T. Ramirez, 15 years, pathology.

Lilli B. Rasmussen, 15 years, dentistry.

Linda D. Rochelle, 15 years, radiology.

Shirley Semigram, 10 years, radiology.

Paulette Y. Setzer, 20 years, Proctor Foundation.

John L. Skaggs, 20 years, police.

Adelaide M. Steele, 20 years, patient accounts.

Robert R. Stephens, 20 years, radiation oncology.

Delores A. Stewart, 20 years, Chancellor's Office.

Sharon K. Udovich, 20 years, volunteer services.

Shirley Ware, 20 years, radiology.

John H. Watkins,, 10 years, environmental services.

Brenda Xavier, 10 years, anesthesia.

Harry Yuen, 30 years, mailing division.

Teodosia D. Zamora, 15 years, pediatrics.

Kaiser Award Nominations Due

Nominations now are due for the Kaiser Awards for Excellence in Teaching. This is a great opportunity for all of you medical students and house staff out there to honor the truly outstanding teachers who have motivated and inspired you. A cash award and certificate will be presented to a member of the volunteer clinical faculty, a full-time faculty member in a clinical department and a full-time faculty member in a basic science department.

Nominating forms are available in the Student Affairs Office, Room S 245, or the Dean's Office, Room S 224, (both Box 0410) and must be returned no later than Monday, April 24. Nominations should be typed or legibly printed, and should provide specific examples and anecdotes illustrating the nominee's teaching excellence. For further information call Joyce McKinney, x68076.

Fulbright Grants for Faculty

Competition has opened for 1990-91 Fulbright grants in research and university lecturing abroad. There will be some 1,000 grants awarded, ranging from three months to a full academic year, with openings in over 100 countries.

To be eligible you must be a US citizen, have a PhD or comparable professional qualifications, university or college teaching experience, and for selected assignments, proficiency in a foreign language.

Impending deadlines are:

- Thurs., June 15: Australasia, India, Latin America, (except lecturing awards in Mexico, Venezuela, Caribbean).
- Fri., Sept. 15: All other countries (and lecturing awards in Mexico, Venezuela, Caribbean).

Application packets are available from Carmen Hoover, Graduate Division, Room S 140, or call x62310.

Helping the Homeless

Remember that jacket that doesn't fit you anymore? What about that skirt? Don't throw them out. Instead, donate them to the homeless.

Students in the School of Dentistry, in conjunction with the American Student Dental Association, will be collecting clothing and food for the homeless from April 17-28. Bins will be set up in the lobby of the School of Dentistry building. All donations will be given to the homeless through the St. Vincent de Paul Society and St. Anthony's Women's Shelter. For further information call dentistry fourth-year student Tom Wuesthoff at 681-7387.

Today/Tomorrow

8 Saturday

UROLOGY GRAND ROUNDS: *What Two Urologists Have Learned from Their Last 5000 TURPS.* Irving L. Katz & L. Richard Hayne, both Uro. *Impotence Research Update.* Tom F. Lue, Uro. Preceded by D&C reports & case presentations. HSW 300. 8:30-11 a.m.

10 Monday

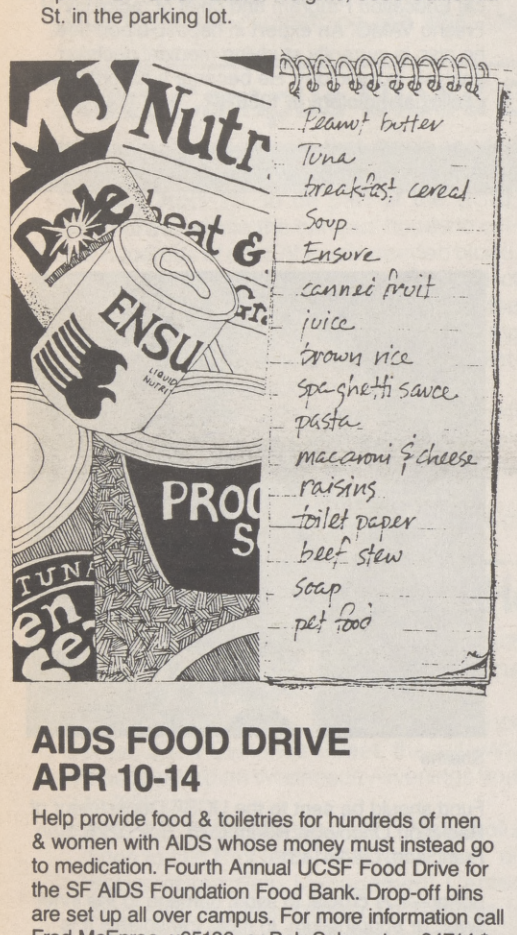
BREAST CANCER SCREENING SCHEDULE

Women can have low-cost mammograms—x-rays to screen for breast cancer—from a mobile van that travels to convenient locations in the Bay Area.

Women need the approval of their physicians to have the mammogram. The procedure takes approximately 20 minutes and costs only $50. To make an appointment call 990-0459 or x62193 between 9 a.m. and 3:30 p.m.

The van will be at the following locations for the next two weeks:

- Apr. 10-14: Taraval St. between 17th & 18th Aves.
- Apr. 17-21: UCSF-Laurel Heights, 3333 California St. in the parking lot.



AIDS FOOD DRIVE APR 10-14

Help provide food & toiletries for hundreds of men & women with AIDS whose money must instead go to medication. Fourth Annual UCSF Food Drive for the SF AIDS Foundation Food Bank. Drop-off bins are set up all over campus. For more information call Fred McEnroe, x65186, or Bob Schwartz, x64714.*

OVEREATERS ANONYMOUS MEETING: *The "How" Concept.* Speaker to be announced. N 417. Noon. Call Lia, x64251.*

CVRI SEMINAR: *Arachidonic Acid 15-Lipoxygenase: Isolation, Cloning & Expression.* C. Elliott Sigal, Med. S 1364. 4-5:30 p.m.

URORADIOLOGY CONFERENCE. M 460. 4:30-6 p.m.

11 Tuesday

COMBINED MODALITY BREAST CANCER CONFERENCE. Surg. Clin. Conf. Rm., 6th fl. ACC. 8 a.m.

ORAL & MAXILLOFACIAL SURGERY GRAND ROUNDS: *Overview of Preprosthetic Surgery.* Richard Gongloff, Oral Surg. C 701. 8 a.m.

SFGH PEDIATRIC GRAND ROUNDS: *Urinary Tract Anomalies.* Barry Kogan, Ped. Uro. Carr Aud., SFGH. 8-9:30 a.m.

TRANSFUSION RESEARCH FORUM: *Review—Hepatitis Viruses in Hematopoietic Cell Culture Systems.* Philip K. Lane, Lab. Med. L 535. 8:30 a.m.

OB/GYN & REPRODUCTIVE SCIENCES GRAND ROUNDS: *The Anatomy of Addiction.* Darryl S. Inaba, Pharm. S 1364. 9 a.m.

PSYCHIATRY GRAND ROUNDS: *New Approaches to Group Therapy with Chronic Patients Series: Group Therapy with Schizophrenic Patients.* Nick Kanas, Psychr. LPPI Aud. 11 a.m.-noon.

SFGH MEDICINE GRAND ROUNDS. Carr Aud., SFGH. 11:30 a.m.

OBSTETRICS/PEDIATRICS & ANESTHESIOLOGY CONFERENCE: John L. Kitzmiller, Ob/Gyn; Roderic H. Phibbs, Ped. & CVRI; Sol Shnider, Anes. & Ob/Gyn. M 1486. Noon.

SFGH GI-MEDICINE/SURGERY/RADIOLOGY IMAGING CONFERENCE. Rm. 1X58, SFGH. 4-5 p.m.

BIOCHEMISTRY/BIOPHYSICS SEMINAR: *RNA Virus Polyprotein Processing.* Bill Dougherty, Microbio., Oregon State U. HSW 301. 4 p.m.

NEUROLOGY GRAND ROUNDS: *Neurological Disorders Among Musicians: A Swan Song.* Michael Charness, Neuro. & Gallo Ctr. S 664. 5-6 p.m.

TRIO D'AMSTERDAM

Concert of early music performed on instruments of the era. Clarinetist Eric Hoeprich, cellist Tanya Tomkins, fortepianist Stanley Hoogland & guest violist Lucy van Dael. Cole Hall. 5:30 p.m. Tickets $7 general, $5 UCSF staff, $3 UCSF students.*

HETEROS & AIDS— AN INFORMATION NIGHT

Jazz pianists Denny Zeitlin & Horace Tapscott play for UCSF Arts & Lectures' *Just About All Jazz* concert series. $10 general, $8 UCSF employees, $7 seniors & students, $3 children under 14. Ticket information, x62035. Concert information, x62542 or x61800. UCSF-Laurel Heights Aud. 8 p.m. *

MOON LECTURE

Thoughts Concerning the Biology of Metastasis as Related to a Primary Neoplasm. Wallace H. Clark, Derm., U Pennsylvania. Henry D. Moon Memorial Lecture. HSW 300. 4-5 p.m.

NEURORADIOLOGY GRAND ROUNDS. HSW 303. 4-5 p.m.

MEDICINE/SURGERY ADULT CARDIAC CATHETERIZATION CONFERENCE. L 1161. 4-6 p.m.

ORTHOPEDIC SURGERY STAFF CONFERENCE. A 630. 4-5 p.m.

PRIMARY CARE GRAND ROUNDS: *Perioperative Evaluations of the Cardiac Patient.* Lee Goldman, Fam. & Comm. Med. A 455. 4:30 p.m.

RADIOLOGY GRAND ROUNDS: *Biliary Lithotripsy.* Roy Gordon, Radiol. HSW 301. 5:15-6:15 p.m.

COLE HALL CINEMA: *A Cry in the Dark.* Ghoulish media accuse innocent Australians Meryl Streep & Sam Neil of killing daughter. Children under 14 $2; UCSF employees (today only), students, seniors & MU members $2.50; general $3. Cole Hall. 5:45 & 8:15 p.m.*

14 Friday

SFGH MAXILLOFACIAL TRAUMA CONFERENCE. Rm. 4H4, SFGH. 7-7:30 a.m.

RADIATION ONCOLOGY GRAND ROUNDS: *Predictor of Hypoxia in Human Tumors: Practical Application with 3 H-Misonidazole.* Raul C. Urtasun, Rad. Onc., U Alberta, Edmonton. L 34. 8 a.m.

PHARMACEUTICAL CHEMISTRY 221 SEMINAR: *The Catalytic Power of Serine Proteases.* Richard Schowen, Chem. & Biochem., U Kansas. S 1364. 11 a.m.

ORAL BIOLOGY 220/TMJ PATHOPHYSIOLOGY LECTURES: *Pain.* Jon Levine, Med., Anat. & Oral Surg. C 130. Noon-1 p.m.

AGING IN IRELAND

Development of Geriatric Services in the Republic of Ireland. Cillian Twomey, Cork/St. Finbarr's Hosp. & Irish Southern Hlth. Bd. LPPI Aud. Noon-1 p.m.

REPRODUCTIVE BIOLOGY SEMINAR: *Na^+/H^+ Exchange: Biological Roles & Regulation.* Harlan E. Ives, Med. M 1486. Noon.

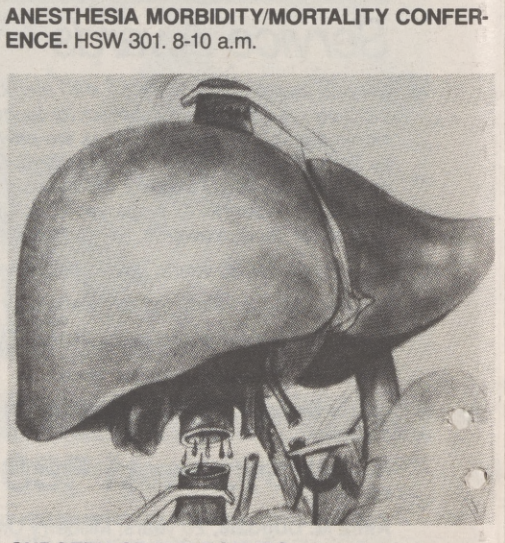
ALCOHOLICS ANONYMOUS MEETING: All are invited. HSE 336. Noon-1 p.m.*

COLE HALL CINEMA: *A Cry in the Dark.* Ghoulish media accuse innocent Australians Meryl Streep & Sam Neil of killing daughter. Children under 14 $2; students, seniors & MU members $2.50; general $3. Cole Hall. 6:30 & 9 p.m.*

15 Saturday

ORTHOPEDIC GRAND ROUNDS. 1st. fl. Confr. Rm., Pacific Med. Ctr. 8-9 a.m.

ANESTHESIA MORBIDITY/MORTALITY CONFERENCE. HSW 301. 8-10 a.m.



SURGERY GRAND ROUNDS: *Liver Transplantation.* Nancy Ascher, Surg. Toland Hall. 8:30 a.m.

HISTOLOGY SOCIETY LUNCHEON: *Molecular Methods in the Study of Prion Diseases.* Stephen J. DeArmond, Path. $10. HSW 508. 10 a.m.-12:30 p.m. For more information call Patsy Kelly, x62610.

LOW VISION FORUM: *How To Advocate for Yourself before Government Agencies.* Anthony Lepire, Educ., SFSU. Clinical Eye Research Bldg., 374 Parnassus. 11 a.m. For further information call Frances Neer at 626-5313.*

17 Monday

FOOD/CLOTHING FOR THE HOMELESS APR 17-28

Dental students food & clothing drive for St. Vincent de Paul Society & St. Anthony's SF Women's Shelter. Bins in the School of Dentistry lobby. (See story on page 2.)*

April 8-21, 1989

OVEREATERS ANONYMOUS MEETING: *The "How" Concept.* Speaker to be announced. N 417. Noon. Call Lia, x64251.*

DENTISTRY DEAN'S SEMINAR

Pharmacokinetics & the Pharmacodynamics of the Ideal Drug. Leslie Z. Benet, Pharm. Toland Hall. 12:30-1:45 p.m.

TOXICOLOGY SEMINAR: *Mechanisms of Nitrofurantoin Toxicity.* Betty-Ann Hoener, Pharm. & Pharm. Chem. HSE 317. 4 p.m.

URORADIOLOGY CONFERENCE. M 460. 4:30-6 p.m.

VOLUNTEER ORIENTATION: To acquaint new and prospective volunteers with opportunities available in the Medical Center. M 169. 6-8 p.m. Call x64372.*

18 Tuesday

COMBINED MODALITY BREAST CANCER CONFERENCE. Surg. Clin. Conf. Rm., 6th fl. A. 8 a.m.

ORAL & MAXILLOFACIAL SURGERY GRAND ROUNDS: *Pathophysiology of Crack Cocaine Addiction.* Alex Stalcup, Haight-Ashbury Clinic. C 701. 8 a.m.

SFGH PEDIATRIC GRAND ROUNDS: *Tuberculosis Update.* Moses Grossman, Ped. Carr Aud., SFGH. 8-9:30 a.m.

NEW EMPLOYEE ORIENTATION: *UCSF Policy, Procedures & Benefits.* Presented every other Tues. All new employees are urged to attend. S 214. 8:30 a.m.-noon. To register call Leonard Florendo, x61073. Medical Center employees call Gemma Reiser, x64846.

PSYCHIATRY GRAND ROUNDS: *New Approaches to Group Therapy with Chronic Patients Series: An Adaptive Approach to Group Therapy for the Chronic Patient.* Walter N. Stone, Psychr., U Cincinnati. LPPI Aud. 11 a.m.-noon.

SAMPSON LECTURER

J. David Bristow, Med., Oregon Hlth. Sci. U Portland, is the Annual John J. Sampson Lecturer.

- Apr. 18: **SFGH Medicine Grand Rounds:** *Mitral Insufficiency Revisited.* Carr Aud., SFGH. 11:30 a.m.-12:30 p.m.
- Apr. 19: **VAMC Medicine Grand Rounds:** *Anatomy & Physiology of Some Cardiac Clinical Trials.* VAMC Aud. 11:30 a.m.-12:30 p.m.
- Apr. 20: **UCSF Medicine Grand Rounds:** *The Leaky Aortic Valve.* Cole Hall. 8-9 a.m.

OBSTETRICS/PEDIATRICS & ANESTHESIOLOGY CONFERENCE: John L. Kitzmiller, Ob/Gyn; Roderic H. Phibbs, Ped. & CVRI; Sol Shnider, Anes. & Ob/Gyn. M 1486. Noon.

BIOCHEMISTRY/BIOPHYSICS SEMINAR: *Proto-Oncogene & Growth Factor Homologs Involved in* Drosophila *Development: Progress on abl & dpp.* F. Michael Hoffman, Microbio., McArdle Lab., U Wisconsin. HSW 301. 4 p.m.

SFGH GI-MEDICINE/SURGERY/RADIOLOGY IMAGING CONFERENCE. Rm. 1X58, SFGH. 4-5 p.m.

WELCOME TO OUTDOORS UNLIMITED: How to become involved in cooperative outdoor adventuring. OU Center, U B15. 7 p.m.*

19 Wednesday

SFGH ORTHOPEDIC SURGERY STAFF CONFERENCE. Rm. 5K8, SFGH. 7:30-9 a.m.

MULTIDISCIPLINARY TUMOR BOARD: M 1296. 7:30 a.m. Call coordinator Michele Hinojosa, x61662.

DERMATOLOLGY CONFERENCE: *Advances in XP & Related Syndromes.* James Cleaver, Lab. Radiobio. & Envrn. Hlth. HSW 301. 8 a.m.

MORNING MEDITATION: Relaxation, meditation, reflection & prayer for ourselves, others & our planet. Landberg Center at St. John's Church, 5th & Irving. 8-8:45 a.m. For more information call 564-3515.*

WORKSHOPS
For campus women & the general public. Pre-registration required. Fees on sliding scale.*

Joys & Complexities of Interfaith Jewish/Non-Jewish Relationships. Sat., Apr. 15. 10 a.m.-2 p.m.

Speak Up, Woman! Communications Skills. Sat., May 20. 11 a.m.-2 p.m.

TEAR GAS CLASSES

Tear gas certification by UCSF Police Dept. Personal Safety Prog. Personnel Conference Rm., 1350 7th Ave. Sat., Apr. 22. 9 a.m.-noon. $12. Pre-registration required. Call x65683.*

CPR CLASSES

UCSF CPR Center's 3-4 hour course in basic cardiopulmonary resuscitation. Sat., Apr. 29 & May 13; Thurs., May 25. N 229. 9 a.m. $20 & $5 for one additional household member. For information & registration call x61817.*

MELVYL/MEDLINE EXPANDED ACCESS

MELVYL/MEDLINE is now available, at no cost, to UCSF faculty, students & staff from any location, including offices, labs & hospitals, that will connect with campus Ethernet or a terminal with modem, as well as from the library terminals. UCSF Library offers frequent seminars on MELVYL/MEDLINE searching techniques, as well as written guides & personal assistance. For further information call the Reference Desk, x62337.

Benefits/Personnel

Personnel Satellite Office Now Has a Pool!

The next time you go to the Personnel Satellite Office at CED, you'll notice a few changes. First of all it has moved to expanded quarters in Suite 120, between the Hartsook Room and the guard desk.

Secondly, not only have the quarters expanded, but so have the services. Now housed here is a component of the Temporary Help Pool, which is assisted by a new employee—Crystal E. Morris.

The entire campus Temporary Help Pool (most people still call it the "Clerical Pool") has been around for years fitting people into temporary jobs in departments that need temporary help.

This new 1855 Folsom component will make it more convenient for CED employees, as well as those at SFGH and 20th & Harrison, to drop off time sheets, schedule future work, etc. And it makes it easier for people who live in that neighborhood to gain campus employment without trekking all the way over to Parnassus.

"This is more of a coordinated outreach effort," explains Randy Lopez, director of Personnel. "Through the combined skills of employment officer Bob Rojas, Deborah Larson, who oversees the entire Temp Pool, and Crystal, we plan to expand our current outreach effort to include temp hires and thereby increase the number of minorities holding campus jobs."

Bob Rojas with Crystal Morris at the Personnel Satellite Office

"It's really great that we can have someone like Crystal representing the Temp Pool at CED," says Deborah. "Historically, UCSF has hired many pool employees into permanent positions, so in effect the Pool acts as a recruitment resource."

Crystal, who comes to us from Temps America where she was branch manager for nine years, isn't restricted to just CED employment. She handles all campus needs, including referrals to the proper employment reps for permanent jobs.

"We finally have a full-service office," says Bob. Now with Crystal on board, the satellite office is staffed by three people: Bob, Crystal and personnel assistant Mirna Segura. They offer job announcement information, application acceptance and assistance, screening interviews, job counseling and affirmative action outreach.

Crystal may be reached at x67944, Bob at x65357.

Personnel is planning a satellite office open house. See future issues of *Newsbreak* for details.

A little aside: There are literally hundreds of people who started out in the Temp Pool, who now have permanent jobs at UCSF. Maybe in a future issue we'll feature some of those folks.

UCRS "Open Window" Will Stay Open

Because of the huge response to the "Open Window" opportunity to buy back UCRS credit, the window now will stay open indefinitely.

Originally scheduled for a one-year period that was to end March 31, the Open Window makes it possible for UCRS retirement plan members to increase their benefits by buying back service credit for earlier periods of membership, leaves and furloughs—no matter how long ago.

Before Open Window, a buyback election had to be made within three years of the member's return to active membership.

According to the main UC Benefits Office in Oakland, thousands of members have responded to the Open Window, requesting complete information on their own buyback situations. An individual calculation is made in each case; then one can choose to pay in a lump sum or make installment payments through payroll deduction.

Because of the great number of requests, a response may take some time. Meanwhile, those who have submitted requests and received acknowledgement do not need to do anything further. Members will be notified when the necessary calculations have been completed.

If you think you'd like to jump on the bandwagon, talk to your department's benefits rep.

A&PS Performance Evaluation Forms Now Available

Personnel's Julius Katz called to say that the A&PS Performance Evaluation Form is now available and can be ordered by using the Storehouse Requisition Form. (We love those forms.)

The stock number/Cal code for ordering purposes is Form #UPER 150-2, 71455-269.

"Clear, consistent performance evaluations are an integral part of the A&PS Program," he says. The staff personnel department will continue to offer training and consultation to interested offices.

Call x62789 for further information.

How are the Funds Performing?

For those invested in the additional savings programs, here are the latest unit values and monthly factors (as of February 28, 1989):

- *Accumulation Unit Values*
  Equity Fund: $53.50 (-3.0%)* (6.99%)**
  Bond Fund: $33.31 (-1.7%)* (1.64%)**
- *Monthly Factors*
  Savings Fund: .0063 (7.84%)***
  Money Market Fund: .0067 (8.38%)***
  GIC Fund: .0067 (8.42%)***

*Percentages represent change in unit value from previous month.

**Percentages represent total percentage increase over previous 12-month period.

Jobs

The Personnel Department, located at 1350 Seventh Avenue, is open to receive applications every weekday from 8 a.m. to 5 p.m. with extended hours on Wednesdays, 8 a.m. to 6:30 p.m. Details of jobs listed below are available in the UCSF Employment Opportunities flyers. Copies are distributed campuswide and also are posted at the Personnel Office and on the second floor of Moffitt Hospital.

Key to union codes:
AFSCME: CX—Clerical and Allied Services
EX—Patient Care Technical
SX—Service
CNA NX—Registered Nurses

Arts & Graphics

Photo Technician. Educational Media Resources: Photography, CED and Various Campus Locations. #V-H51164. $1,594-$1,883. Open Until Filled.

Clerical

Administrative Assistant III-Supervisor. Biochemistry. #M-L4593. $2,099-$2,524. Filing Deadline: 4/19/89.

Accounting Assistant III. LPPI, CED. #V-W26477. $2,090-$2,513. Open Until Filled.

Administrative Assistant III. Family Health Care Nursing. #V-H54627. $2,090-$2,513. Filing Deadline: 4/12/89.

Accounting Assistant II. Accounting Office, CED. #V-H53100. $1,837-$2,192. Filing Deadline: 4/12/89.

Administrative Assistant II. Pediatrics. #M-C69866. $1,837-$2,192. Filing Deadline: 4/12/89.

Administrative Assistant II. Physiological Nursing. #V-H60813. $10.56-$12.60/hr. Open Until Filled.

Administrative Assistant II. Department of Pharmacy. #V-S62640. $1,837-$2,192. Filing Deadline: 4/12/89.

Health Care

Per Diem Nurse Anesthetist/Nurse Anesthetist. Anesthesia. $31.22/hr./$3,696-$4,464. Open Until Filled.

Clinical Nurse II. Laboratory Medicine. #M-L60705. $2,855-$3,361. Filing Deadline: 4/12/89.

Physical Therapist I. Physical Therapy. $2,567-$3,850. Open Until Filled.

Respiratory Therapist I/Registered Respiratory Therapist. Anesthesia, Respiratory Therapy, SFGH. $2,127-$2,558 or $2,330-$2,809. Open Until Filled.

Respiratory Therapist I/Registered Respiratory Therapist I. Respiratory Care Service. $2,127-$2,558 or $2,330-$2,809. Open Until Filled.

Senior Vocational Nurse. Laboratory Medicine. #M-L60706. $1,884-$2,153. Filing Deadline: 4/12/89.

Hospital Unit Service Coordinator II. Nursing. $9.80-$11.64/hr. Open Until Filled.

Administrative/ Professional

Programmer Analyst II. Administrative Information Systems, CED. #V-H50859. $2,567-$3,850. Filing Deadline: 4/12/89.

Programmer Analyst II. Medicine/Magnetic Resonance Unit, VAMC. #M-C62135. $2,567-$3,850. Filing Deadline: 4/12/89.

Administrative Analyst. Insurance & Risk Management, 1381-9th Ave. #V-H43292. $2,333-$3,500. Filing Deadline: 4/12/89.

Administrative Analyst/Technical Support Analyst. Hospital Information Systems/Computer Services, CED. #H-P47038. $2,333-$3,500. Open Until Filled.

EMPACT!

Alaska Cruise: 9,000 Tickets To Go

EMPACT! is trying to raise $10,000 to benefit the employee activities program—*your* activities program—so hurry up and buy your tickets!

So far, about 1,000 tickets have been sold, which leaves only 9,000 to go.

For just $1 you get a chance at winning a 12-day Alaska cruise or one of three pages of other prizes—including a catered cruise for 20 couples, wonderful weekends at great hotels, dinners, lunches, brunches, a TV, VCR, bicycle, and dozens of other things.

You can buy tickets from the ticket sellers running around campus, or at the MU Central Desk, or call EMPACT!, x66932. Also, every Friday during the lunch hour tickets will be on sale at convenient locations:

- April 7: School of Nursing lobby by the Courtyard Cafe
- April 14: MU lobby
- April 21: Emergency Department entrance
- April 28: School of Dentistry lobby
- May 5: School of Nursing lobby.

The drawing will be on Chauncey Leake Day, Thursday, May 11.

Take note: If you help sell tickets, you'll have a chance at winning even more prizes. Call EMPACT!.

Also take note: If you have purchased a ticket between the numbers 521 and 1,520, please call EMPACT! right away.

That's the Breaks

Seconds before this photo was taken, Lenard Florendo's first-prize egg did look very much like his boss, Personnel's Randy Lopez. Then the photographer dropped the egg, and now it looks like Humpty Dumpty. Hopefully, you got to see it before the great fall. Second prize in EMPACT!'s boss-look-alike Easter egg contest went to Debra Greenblatt of SFGH's General Clinical Research Center, who created her "eggceptional" supervisor, Dr. Edward G. Biglieri. Third prize: Randal Billyard's rendition of parking supervisor Charles Alexander.

She Had to Ski in a Garbage Bag, But She Raised $1,800 Anyway

You may remember an item last year on how float nurse Lisa Mannheimer entered a ski-a-thon at Squaw Valley and raised $1,600 for Multiple Sclerosis.

This year she entered again and this time raised $1,800. And that was against all odds!

Unlike the beautiful spring skiing conditions they had for last year's ski-a-thon, it snowed all day long at this year's event on March 18. Worse, it was a wet, cold, miserable snow. Only about 300 showed up out of an expected 1,000 participants.

"I wore a garbage bag to keep dry," says Lisa, but the snow made it impossible to see, even with goggles. She fell repeatedly and twisted her ankle.

Still, she got in 10 runs before the day was over—and not the short runs, either, even though that was acceptable. Several times she went the full length, from top to bottom.

In all, she got about 150 pledges, mostly from friends and colleagues on the neurology/neurosurgery unit (8 Long), where she worked for three years. "My biggest pledgers were Dr. Wilson and Dr. Layzer (Charles and Robert, respectively). They both pledged $5 per run."

A Bay Area native, Lisa has skiied for the past 15 years and participated in the MS Ski-a-thon for the past three. Last fall she also participated in the MS two-day "Waves to Wine" cycle-a-thon—not as a cyclist, but as the "sag nurse." This involved combing the 150-mile trail from Petaluma to Bodega Bay and back to Santa Rosa, rescuing cyclists in distress. She picked up quite a few.

"It's a beautiful ride, but very strenuous. A lot of people overestimate their ability. You have to train for it." She is, as a matter of fact, training for it herself. She's says she'd like to try it next year.

Meanwhile, she's busy collecting the money for the ski-a-thon. If you pledged and haven't paid up, why not make it easy for her? Multiply your pledge by 10 and present her with a check.

"Spend a Day" *(continued)*

ony between Monday, April 24, and Friday, April 28.

Sign-ups are first come, first served, so be sure to make your reservations early. In the past, some people were disappointed because they couldn't visit their first-choice department.

The following are all the places you can visit. If you don't see your first-choice department on the list, tell sign-up coordinator Melony Hamilton, x62252. Maybe she can arrange something. Likewise, if you would like to be a host department and your name is not included, tell Melony.

Inpatient Nursing Units
OR/PAR: Operating rooms and recovery

Lynda Jacobsen, New Path Manager

Last time you met Lynda Jacobsen in this publication, it was as the manager of the Cancer Registry, a former campus department that had newly moved to the Med Center's Medical Records department.

Last Monday, Lynda stepped into her new job as manager of Anatomic Pathology Services. She takes the place of Joe Urquidi, who accepted "a job offer he couldn't refuse" in Los Angeles.

Lynda came to UCSF from the electronics industry three years ago, as a supervisor in Medical Records. "My coming here was a shot in the dark. I was in management before, enjoyed it, and it seemed there might be a place for me here. So I applied."

Her obvious success led to the position with the cancer registry, where, under her leadership during the past year and a half, the staff has successfully brought the program into compliance with new state regulations.

Her position with the cancer registry also put her into close contact with pathology—the source of much of the data collected by the registry.

Her new position is a big promotion. "I'll be dealing with eight cost centers instead of one, and managing 27 people instead of 6." But the management issues are basically the same—"just bigger."

Lynda can now be reached at x65248, Box 0102, M 555.

Blood Bunnies

Perhaps you—like 11 Long's Sharon Likely—snatched a chocolate from the Easter basket borne by Beverly Nazareno and Linda Burk of the Blood Donor Center. If you missed the Easter bunnies, perhaps you caught the balloon-bearing leprechauns on St. Patrick's Day.

According to the staff of the Blood Donor Center, these holiday visits are their newest way of telling you about our inhouse blood donor center—and urging you to donate.

Everyone who got a chocolate egg or balloon also got a card advertising the location and opening hours: Moffitt 80; Monday through Friday, 10 a.m. to 8 p.m.; Saturdays, 10 a.m. to 3 p.m.

For more information or to make an appointment, call x66989.

Don't Miss the Earthquake Video

In observation of "California Earthquake Preparedness Month" (April), the Disaster Committee is urging all departments to watch "Earthquake Preparedness in the Home and at Work." The video is available by calling Kathy Lenihan, x64891.

Also, be sure to stop by the Medical Sciences lobby during the week of Monday, April 24, through Friday, April 27. This has been designated Earthquake Preparedness Week in the Medical Center and across campus. In addition to booths with information on emergency supplies and disaster preparedness planning, the above video will be shown.

May Day Run April 30!

Will UCSF win the American Heart Association's May Day Hospital Challenge for the fourth year in a row?

Our chances are pretty good—if we have the same kind of participation as in the past. Eligible runners include all employees and their spouses or partners.

Team captains Brigid Ide and Elaine Shanahan are taking sign-ups now through Friday, April 14. Call x66659.

The run takes place Sunday, April 30, 9 a.m. at the Polo Fields in Golden Gate Park.

Last year our team also won box seats and a catered lunch at a Giants game for being the top fund raisers. The same prize is up for grabs again for the team who raises the most in registration fees and pledges combined. Ask for details.

Fine Idea: Join the Auxiliary

On the occasion of the Medical Center Auxiliary's annual membership drive, Bill Kerr sent a memo to managers and A&PS staff urging people to consider becoming a member. "It's a unique means of providing personal support to patient programs," he said. "From major special projects to a wide variety of patient amenities, the Auxiliary raises funds which enable us to implement staff proposals that add 'that special touch.'"

Naturally, you don't have to be a manager to join. *Anyone* is welcome, and if you're interested in helping with their various fundraising events—including helping out at the "Bearly New" thrift shop—all the better. If you just want to support their cause by buying a membership, that's fine too. There are several categories of membership, the cheapest being $15. Call the Auxiliary, x64906, for a membership form.

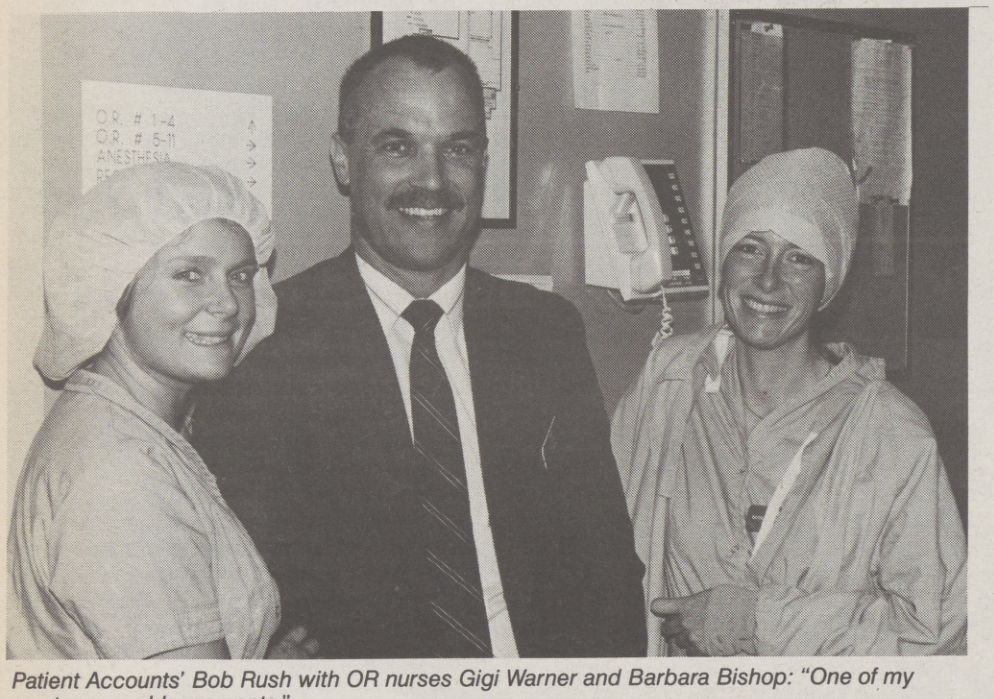
You've Heard What They Say About "Spend a Day"



Patient Accounts' Bob Rush with OR nurses Gigi Warner and Barbara Bishop: "One of my most memorable moments."

Former co-workers Chuck Kredensor of Materiel Services and Nursing's Adelia Ingram: "It was good to see Adelia again after all these years."

Again this year, the Medical Center has opened up the invitation to the entire campus to come "Spend a Day" in the department of your choice.

Those who have participated in the past will tell you, it's a great opportunity to venture outside your daily routine and broaden your horizons.

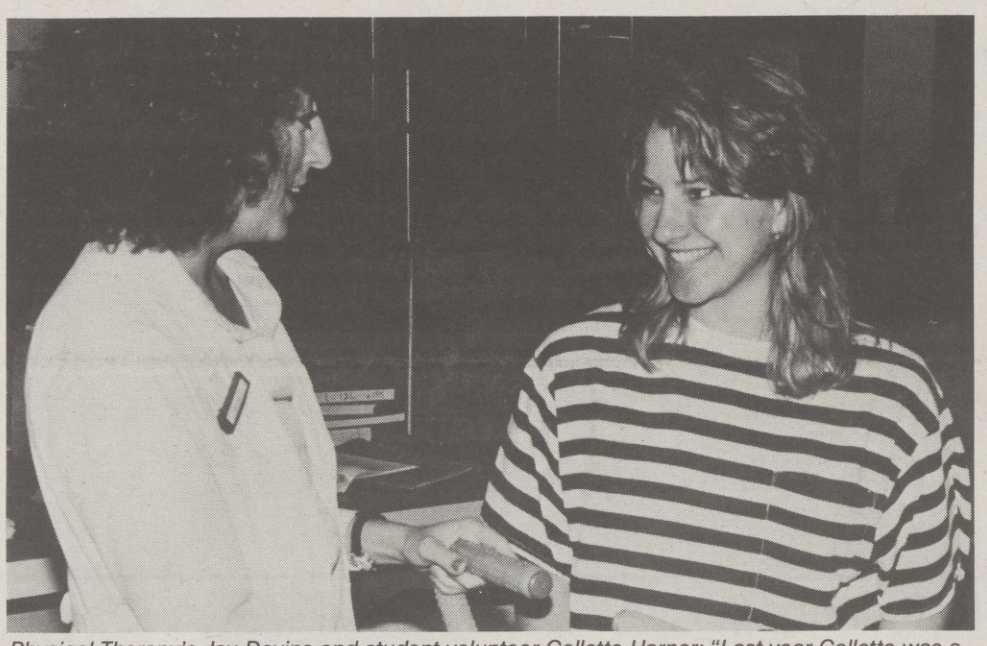
Here's how it works:

In celebration of National Nurses' Day and National Hospital Week during the first two weeks of May, any member of the campus community is invited to spend an hour in a Medical Center department of his or her choice. These are one-on-one visits, conducted by a preceptor in the host department.

While the visit sometimes includes a tour of the department, the real idea is for the visitor to observe the host at work, get a feel for the function of the host department and its relationship to the rest of the Medical Center and campus; and for an exchange of ideas and information to take place between visitor and preceptor.

The evaluation sheets from last year's "Spend a Day" show high marks from both preceptors and visitors. For instance:

- **Clincal labs' Joyce Lehman,** visitor to admitting: "Wonderful to get out and see other people's problems."
- **Nursing administration's Jane Hirsch,** visitor to the inpatient pharmacy: "I'm sorry to say that in all my years here I had never been through the pharmacy before this—as it was most helpful to see the entire operation, learn about the systems, see IVAS, and learn how trays are set up."
- **Materiel Services' Chuck Kredensor,** host to KTU's Adelia Ingram: "It's a good feeling to have someone tell you they've learned something about your department that could be used to better our relationship."
- **Accounts Receivable's Bob Rush,** visitor to the OR: "Watching bypass surgery was fascinating—one of my most memorable moments."
- **Patient Accounts' Melvin Dixon,** visitor to ACC registration: "I would recommend this experience. It creates a rapport with what might have been just a 'voice on the phone' in the past."
- **Physical Therapy's Joy Devins,** host to volunteer Collette Harner: "I took Collette on a tour and explained the role and function of the department. Then she accompanied me up to the floor where I worked and observed me treating a patient. It's refreshing and encouraging to know that staff from one department are interested in another."
- **Nutrition & Dietetics' Monique Schloetter,** host to nursing administration's Karen Jolliffe: "In trying to answer some of Karen's questions, I learned a few facts about our department myself."
- **Intensive Care Nursery's Iris Biblowitz,** visitor to 10 Long & Admitting: "I used to work on 10 Long, so this was a chance to visit with my former colleagues, be with adult patients and see if anything had changed. It was still as fast-paced as ever! I also visited Admitting because we deal with this department on a daily basis. It helped me understand some situations I formerly might have labeled 'problems' in our interactions."



Physical Therapy's Joy Devins and student volunteer Collette Harner: "Last year Collette was a volunteer on 12 Long. This year she's back as a volunteer in PT."

How to Sign Up

Visits with inpatient nursing units and ACC departments will be scheduled for the week of Monday, May 1, through Friday, May 5.

To sign up for these departments, call Melony Hamilton at x62252 between Monday, April 17, and Friday, April 21.

Visits with other Medical Center departments will be scheduled for the week of Monday, May 8, through Friday, May 12.

To sign up for these departments, call Mel-

(continued on page 7)

Calling All Contest Junkies: Create a "UCSF Burger" for the Bill's Place Menu

Here's the contest: Come up with a list of ingredients you think would make the ideal "UCSF Burger" and turn in your recipe to Bill's Place on 9th Avenue near Irving before the judging on June 1.

The winning "UCSF Burger"—with your name as the creator—will join the other celebrity burgers on the menu at all Bill's Place restaurants. Furthermore, you'll get a $100 savings bond and probably get your picture in *Medsounds*.

If you can't imagine what on earth would go in a "UCSF Burger," one suggestion is a "bleu and gold burger" with bleu and cheddar cheeses. (Blue and gold are the UC colors.) Top that.

The person behind this contest is radio and TV personality Joey Bavaresco, the star of a late-night TV show called "The Zany World of Joey Bavaresco" and a former patient on 7 Long. Bavaresco says he was so pleased by his care here, he wanted to make some public gesture of gratitude.

He came up with the idea of dedicating a hamburger to UCSF. Bavaresco brought it up to his friend Don Durham, who owns Bill's Place. They decided to make it into a contest and Bavaresco kicked in the $100 savings bond.

So there you have it, the chance for you and UCSF to join Beverly Sills, Wendy Nelder, John Molinari, Red Skelton, Herb Caen, Carol Doda and other immortals in the Bill's Place Hamburger Hall of Fame.

Entertainer and former patient Joey Barvaresco has a hand in this.

If all this hamburger talk has whet your appetite for more information on Bavaresco, this is how he tells it: He's a 50-year-old Bay Area native who started his career in SF night clubs "that no longer exist." For the past several years he has produced and starred in his late-night TV talk show "Zany World of Joey Bavaresco," in which he does anything that comes to mind. "For instance, if we want to know how a famous chef makes veal scallopine, we might stop in and film the show in his restaurant."

Lately the show has been off the air, while Bavaresco has been recovering from cancer surgery and a subsequent series of plastic surgeries. But his recovery has been so complete "thanks to Dr. [William] Hoffman and the staff at UCSF," he's going back into production and the show will be on the air again in May on Fox Network stations.

By the way, there's also a "Zany Bavaresco Burger" on the Bill's Place menu. It's on pita bread and has sprouts ("which look like my hair") and special sauce, but no cheese. "I'm allergic to cheese. It clogs my passages."

Okay, now go see what you can put together for *our* signature hamburger.
